LogicWave...

Brings 20 years of industry related experience drawing from hundreds of system integrations including designs of many multi-million dollar systems, advanced enterprise level control system development and integration, sustainment planning and training.

Handles projects from a variety of industries such as aerospace, oil & gas, technology, military, higher education and entertainment.

Led by an InfoComm recognized CTS-D who is also certified to configure many relevant industry leading electronics such as Crestron, Extron, Biamp Systems, and Cisco Telepresence.

Has the capability to provide cleared personnel for your sensitive projects.

Is your premier audio video system experts for commercial, military and local, state and federal government.

TESTIMONIAL

"With Craig Brickner's knowledge, professionalism and patience he has helped us establish an entirely new and upgraded Audio/Visual system that has expedited our facility's success and growth. His expert opinion guides us in the right direction and we look forward to continuing our relationship with LogicWave as a long-term and trustworthy resource."
